

Cognizant interview experience candidates (April to July 2025)

By https://youtube.com/@coder_girl_11?si=IdJxMoBr95C8m4Tb

Interview questions asked to students

Experiences

April 17th interview

1. Introduce Yourself.
2. Tell me about your projects and your role in them.
3. Explain the back-end architecture of your project.
4. Which Java version do you use, and what are its key features?
5. How does HashMap handle null values and duplicate values?
6. Find whether a given string is a palindrome or not.
7. Write an SQL query to find the third highest salary from the employee table.
8. What challenges did you face while working on your project, and how did you overcome them?
9. Given a scenario: If something must happen, what kind of solution can you provide?
(Problem-solving approach)

April 21th

1. Find the largest element in an array.
2. Reverse a string.
3. Find duplicate elements in an array.
4. Check if a string is a palindrome.
5. Find the smallest element in an array.

6. Implement a stack or queue.
7. Check if a number is prime.
8. Generate the Fibonacci series.
9. Calculate the factorial of a number.
10. Implement a binary search algorithm.

June 5

- . Introduce Yourself.
2. Remove duplicates in an array.
3. What are lists?
4. What is Dictionary?
5. What is Inheritance?
6. Tell me about the pillars of OOPS.
7. What are your Strengths and Weaknesses?

Date not specified

1. Reverse an array.
2. Find the missing number in an array.
3. Find duplicate elements in an array.
4. Find the longest substring without repeating characters.
5. Check if a string is a palindrome.
6. Implement a stack or queue.

7. Check if a number is prime.
8. Generate the Fibonacci series.
9. Calculate the factorial of a number.
10. Implement a binary search algorithm.

March 2025

1. Tell me About Your Project.
2. Difference between function overloading and function overriding?
3. What do you mean by Operating System?
4. What is Inheritance?
5. Tell me about the pillars of OOPS.
6. Why do you want to join Cognizant?
7. Are you able to relocate?

April 1 2025

1. SQL questions: Find the maximum salary from a table.
2. Given a table, write SQL queries to add, delete, and modify data.
3. Explain OOPS concepts with real-time examples.
4. What are aggregate functions in SQL?
5. What is the this and super keyword in Java?
6. What is the difference between abstract class and interface?
7. Can you explain the differences between JVM (Java Virtual Machine) and JRE (Java Runtime Environment)?

8. What is the difference between an inner join and an outer join in SQL?
9. Explain normalization forms. (Make sure to mention them in proper sequence, from 1NF to 5NF).

Date not specified

1. Why do you think JAVA is safe compared to other languages?
2. What is meant by the term OOPs and their need?
3. What are the advantages of DBMS?
4. When does a checkpoint occur in DBMS?
5. What are cloud computing and data mining?
6. What is Polymorphism?
7. What is the waterfall model?
8. They also asked me to explain my college project, mainly my roles and responsibilities.
9. Write a code to bubble sort.

Date not specified

1. Where do you see yourself in 5 years?
2. Self Introduction
3. Tell me about your projects.
4. Why should we hire you?
5. What leadership qualities do you have?
6. What were the difficulties you faced while working on the project?
7. Do you have any questions for me?

March 2025

1. Write a code to check whether the string is palindrome or not?
2. SQL queries on joins with three tables.
3. Types of joins.
4. What are the activation functions?
5. What is TCL?
6. What is CNN?
7. How does your project work, explain backend work in detail?
8. What do you know about cloud technology?
9. Situation-based – How will you run a campaign for a specific product in a rural area?

March 2025

1. Tell me About Yourself.
2. Asked 2-3 basic Questions of C++.
3. Asked me to Write a code to check if a number is prime or not.
4. What is Dictionary?
5. What is Inheritance?
6. Tell me about the pillars of OOPS.
7. Explain your Project in Detail.

(The person told only c++ knows well so they ask qns but they don't allow for everyone so be prepared for that)

.Dates not specified

1. OOps concepts in C#
2. Data types
3. Difference between class and interface.
4. What is constructor
5. Final keyword in c#
6. Difference between method overloading and overriding
7. Then he ask explain projects
8. Sql joins
9. Sql commands
10. Sub query

25th April

1. What is your comfortable language
2. Unique key and primary key
3. Logic gates
4. Fabinaccai series
5. Create a table in sql
6. Speak about any topic for 2 mins
7. Merge sort
8. What is encapsulation

17th April 2024

1. Are u willing to relocate?
2. Can you work any shift?
3. Can you learn new technologies stack?
4. I said my preferable language is python, he said they are hiring for java
5. Tell me about yourself
6. Drop vs truncate
7. ArrayList vs Hashmap
8. Remove duplicates from array
9. Any sorting algorithm implementation.
10. html basic structure

.

(4 April 2025)

1. Introduction
2. What were you doing for the last 1 year?
3. Explain OOPS with real-life examples.
4. Write a Java program to print the first 50 prime numbers.
5. What is DOM in HTML?
6. Write an SQL query to find the second-highest salary.
7. Are you ready for 6 months of training in Chennai?
8. Explain the difference between abstract class and interface.

(5 April 2025)

1. Introduction
2. Views in sql
3. Self join in sql
4. Inheritance in java
5. Java to print vowels of your name and count that vowels.
6. Sql code for views for two tables.
7. Interface and abstract class
8. Difference between python and java
9. Use of final keyword
10. Method overloading overriding
11. Able to work on any projects
12. Are open to relocation
13. Can you join the training in Chennai or coimbatore on April 10 of this month

(4 April 2025)

1. Relocation
2. Introduction
3. Languages Learned
4. Asked About the Language
5. What is C#?
6. Rate Yourself in Coding

7. SQL Table Creation and Database Creation Syntax

8. Use of Database in Real-Time Scenario

9. View in SQL and Real-Time Usage

(3 April 2025)

1. Exception handling

2. Shallow copy deep copy

3. Bubble sort coding

4. Sort an array coding

5. Try & except program

6. Replace the vowels in name with numeric values and print the new name also print the count of replaced values.

7. Explain your projects deeply and be ready to answer any questions related to that and your role as well

8. Why do you want to join Cognizant?

9. Some situation questions

(7th April 2025)

1. Tell about your project in 5 days.

2. how will you solve a conflict between your team members.

3. Talk about any topic over 1min.

4. Print a largest palindrome in a given string. Sample input: banana Output: anana

(5 April 2025)

1. intro
2. about project
3. asked about comfortable language(python or java)
4. inheritance
5. prime numbers upto 50
6. sql-joins
7. generators
8. usage of 'with' in python
9. exception handling in python
10. aggregate functions in sql
11. union and union all

(7th April 2025)

1. Java and its features
2. Explain oops concepts
3. Write code for print first 10 numbers
4. Write code for prime numbers in java
5. Oops concepts briefly
6. About SQL
7. SQL queries
8. SQL joints

9. Inner join
10. And difference blw every join
11. Union
12. Diff blw union and joints
13. About HTML
14. Webpages
15. And remaining HR questions basics

(4 April 2025)

1. What are joins in SQL? Explain different types.
2. What is multithreading in Java? How does it work?
3. Explain the difference between `==` and `.equals()` in Java.
4. What is the difference between DELETE and TRUNCATE in SQL?
5. How does garbage collection work in Java?
6. Explain your project in detail.
7. What challenges did you face while working on your project, and how did you overcome them?

(1 April 2025)

1. Self Introduction
2. Different between C and Java
3. Difference between Python and Java
4. Inner Join in SQL
5. Which languages support OOP concepts?
6. Strengths and Weaknesses
7. How do you handle stress?
8. Print reverse string program
9. Aggregate functions
10. What is COUNT in SQL?
11. Write a query for aggregate functions.
12. Delete records from a table.
13. Are you flexible to relocate in Chennai or coinbatore for training?

(1 April 2025)

1. Are you okay with the Chennai location?
2. How many coding problems did you solve in the technical assessment? (You answered 4/5). Why not 5?
3. Do you know Cognizant's policies and terms? Why only Cognizant?
4. Can you introduce yourself? (Note: Projects were not asked at this point)
5. Pattern question

6. Factorial coding problem

7. A scenario-based coding problem: In your date of birth, there is a date, month, and year. You need to remove the date and month step by step and output only the year. Write a Java

(4 April 2025)

1. C# Code to Print Sum of First Five Numbers from a Set of Ten Without Giving Values Directly (Using Loop)

2. JavaScript Validation Question

3. Background-Color and Text Color in CSS

4. Interviewer Asked: Analyze Questions?

(3 April 2025)

1. Factorial

2. Palindrome

3. Inheritance

4. Polymorphism

5. 2nd largest salary

6. CREATE

7. INSERT

8. Phishing

9. Cybersecurity definition

10. DoS

11. Concepts familiar with
12. Encryption & decryption with examples
13. Decoding & encoding

(1 April 2025)

1. Self-Introduction
2. Explain Java Inheritance with Code
3. Write Java Code to Convert "AKshAy" to "akshaY"
4. What is Exception Handling in Java?
5. What is Indexing in SQL?
6. What is a Foreign Key in SQL?
7. What is normalization?
8. What are the different types of joins in SQL?
9. What is the difference between DELETE TRUNCATE?

(1 April 2025)

1. Threads in Java
2. Garbage Collection in Java
3. Implementation of Multiple Inheritance in Java (Write Code)
4. SQL Query to Retrieve the Second Highest Salary from a Table
5. Recursion-Based Question (Pseudo Code)

6. Difference Between Foreign Key and Primary Key

7. JVM Architecture and Components

(1 April 2025)

1. Difference Between String, StringBuilder, and StringBuffer

2. How HashMap Works Internally in Java

3. ACID Properties in Databases

4. Difference Between Checked and Unchecked Exceptions in Java

5. 2 situation based questions

6. About Cognizant

Follow for more updates

If it shows no dates specified means the person didn't give date on interview

All the best do well !!!!!
